

## Curtain style single-tech PIR Detector

- ✚ Adopts advanced digital signal processing technology, combined by highly accurate PIR sensor and logic circuit design, intelligent direction recognition.
- ✚ Anti interference, fully temperature compensation
- ✚ Micro process , CPU control , pet immunity
- ✚ Mini power consumption design, intelligent energy-saving mode.
- ✚ Elegant appearance, safety and dependable, convenient installation.
- ✚ Fit for terrace, window installation
- ✚ Intrusion direction and delay time adjustable

FST-APF20	
Distance	Distance 6m, vertical 3.6m
Installation height	2.4m
Operation voltage	9-16V DC
Operation environment	-10°C - +50°C
Anti-RFI/ EMI	> 20V/M(1000MH z)
Detection direction	Entrance/exit for option
Pet immunity	20Kg
