

Network Combustible Gas Detector

- ✚ Auto reset after alarm;
- ✚ MCU process;
- ✚ Sensor with high stability and low power consumption;
- ✚ Auto check and indication for malfunction;
- ✚ Detecting natural gas and LPG;
- ✚ SMT adopted

FST-LF706N	
Operating voltage	DC12-24V
Static current	100mA @12V; 120mA @24V
Alarm current	120mA @12V; 80mA @24V
Alarm output	Relay output; sound & flash alarm
Sound level	85dB/3m
Intallation	Ceiling mounted
Gas species	LPG & Natural gas
Alarm level	10% ±5% LEL
